

Marshfield Child Advocacy Center Resilience Clinic Presents:

Attuned & Responsive Parenting: A Trauma Responsive Guide for Adoptive & Foster Parents

Explore ways to positively influence success at home and school by responding to children through a culturally and developmentally sensitive lens. We will discuss how young developing brains are affected by disruptions in healthy attachment, buffering of adversities and poor caregiving. Why early in life interruptions and maltreatment affect overall healthy development, healthy attachment, learning and resilience. And why well-meaning strategies we use with our own children may not always work and may re-traumatize children. This is a FREE workshop! Childcare is available upon request. Subs, chips, and drinks will be provided at 5:00 with the workshop beginning at 5:30.

Monday, May 21st, 2018

5:30-7:30 pm

(dinner at 5:00)
